☐ Adult ☐ Pediatric

Psychiatry

☐ Adult ☐ Pediatric

CPSA

As per CPSA, please include the following in your referral letter:

- Purpose of the referral, including but not limited to specifying if the referral is solely for the purpose of a third-party request;
- Pertinent clinical information, including but not limited to the relevant investigation results; and
- Expected consultation outcomes (Ex. medical opinion only, possible transfer of care, other)

If patient is unable to keep their appointment, they should **call our office at 1-833-738-PEAK (7325) as soon as possible**. Peak Pulmonary Function Laboratories and Peak Medical Specialty Centres respectfully requests ***at least 48 hours' notice*** for cancellations. Methacholine challenge testing warrants clinical correlation with a referral to a Respirologist/Allergist as there may be other factors pertaining to the diagnosis of obstructive lung disease. All respiratory testing includes oximetry, education for the patient, and Respirologist interpretation and recommendations.
